Note: Data are not readily available for all sources by Employment Region. ABS Labour Force Survey data are based on the Barossa - Yorke - Mid North SA4. The Internet Vacancy Index (IVI) uses a unique geographical approach. For this region, the IVI Yorke Peninsula & Clare Valley region has been used. jobactive caseload reports at the Employment Region level and includes participants receiving both digital and provider servicing (it excludes other programs, such as ParentsNext or Transition to Work (TTW)). For caseload data, the Employment Region is based on (1) the location of the provider for jobactive provider serviced participants; (2) where the participant resides for Online Employment Services (OES) participants; (3) the NEST Employment Regions of Adelaide South or Mid North Coast for NEST participants. jobactive caseload by duration registered is based on the participant's time registered in employment services. Caseload data are based on current methodology which has been retrospectively applied to historical jobactive caseload dates. As such, the data may not align with earlier figures.
